

The Wage Gap

Median annual pay for a woman is* **\$38,774.**

Median annual pay for a man is* **\$48,001.**

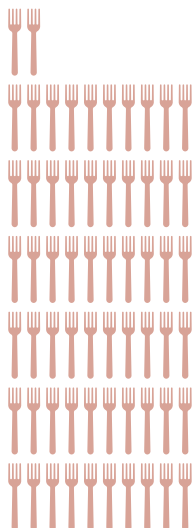

*Oregon wage gap for full-time, year round jobs.

This means that women in Oregon are paid 81 cents for every dollar paid to men, amounting to an annual wage gap of **\$9,227.**

If the annual wage gap were eliminated, on average, a working woman in Oregon would have enough money for:

Approximately 62 more weeks of food.

12 additional months of child care.

Nearly 10 more months of rent.

One additional year of tuition and fees for a four-year public university.
